

Developed by our team of 6 on-staff teachers,
we have a CBA Solution that's as easy as **A B C**

Steps:

A

Contact Wriggle:

We'll gather some information around your systems and undertake any necessary technical set up. Teachers are then free to focus entirely on teaching and learning.

B

Prepare your Class:

Once Step A is complete, all a teacher has to do is prepare their students so that they're ready to be recorded.

C

Press Record:

Then simply hit record. Files are then saved at the push of a button and they're fully secure and easily accessible. It really is that simple!
